Description

Few homes in Halifax's South End are built like this one. Offering over 4,700 sq ft across four meticulously designed levels. With 5 bedrooms, 4 baths, this custom-built home offers the kind of scale, quality, and long-term functionality rarely found on one of Halifax's most sought-after family streets. Carved into the natural stone terrace with remarkable structural integrity, the home was designed with longevity and everyday ease in mind. Copper slate flooring, an imported sandstone exterior, a rooftop garden, and a rare non-hydraulic residential elevator serving all four levels set it apart from anything else at this price point in the South End. The

layout is exceptionally well suited for family living. Principal rooms are generous, bedrooms are private, and the main level, previously an in-law suite, adapts effortlessly for guests, teenagers, or live-in support. Four additional flex rooms offer room for a theatre, gym, office, games room, or future kitchenette as your needs evolve. Elevated into the hillside, the terraced grounds feel established and private. Mature trees, some centuries old, layered gardens, generous lawn, and ample space for a future in-ground pool complete a property that is as functional as it is beautiful. Just minutes from hospitals, universities, downtown, and Halifax's top schools, 6177 Regina Terrace is a rare opportunity to own a substantial South End home built to serve a family for decades.
